

# CONTENTS

## SEVENTH INTERNATIONAL SYMPOSIUM INSTITUTO «REINA SOFÍA» DE INVESTIGACIÓN NEFROLÓGICA

Madrid, november 16-17<sup>th</sup>, 2000

### Guest Editors

Jorge Cannata and Francisco Ortega

#### I. INTRODUCTION

*F. Ortega, J. Baltar, M. Rodríguez, P. Rebollo and L. Hernando*

#### II. EVIDENCE-BASED MEDICINE

##### A critical view from the clinician

*C. Zoccali*

#### III. LIVER AND KIDNEY

##### A) Gene therapy in liver and renal diseases

*G. Mazzolini, J. Ruiz, C. Qian and J. Prieto*

##### B) Pathogenesis of peripheral arterial vasodilatation in cirrhosis

*J. M. López Novoa and I. Montañés*

##### C) Hepatorenal syndrome

*J. Rodés*

#### IV. WHY HEMODIALYSIS DEVELOPS INFLAMMATION?

##### Cellular activation and apoptosis as markers of inflammation induced by hemodialysis

*J. Carracedo, R. Ramírez, J. A. Madueño, S. Soriano, A. Rodríguez-Benot, M. Rodríguez, A. Martín-Malo and P. Aljama*

#### V. BONE METABOLISM AND GENE POLIMORPHISM OF VITAMIN D RECEPTOR

##### A) Pathophysiology and general population data

*C. Gómez, M. Naves, J. L. Fernández, C. Díaz and J. B. Cannata*

##### B) Gene polymorphism of vitamin D receptor and parathyroid function

*R. Jofré*

##### C) Gene polymorphism of vitamin D receptor and bone disease after kidney trasplant

*A. Torres, Y. Barrios and E. Salido*

#### VI. CARDIOVASCULAR DISEASE AND RENAL FAILURE

##### A) Vascular oxidative stress and endothelial dysfunction

*G. Zalba, A. González, J. Beaumont, G. San José, U. Moreno, B. López, S. Ravassa, P. Muñiz, A. Fortuño, M. A. Fortuño and J. Díez*

##### B) ACE gene polymorphism and cardiovascular disease

*E. Coto*
