## CARDIOVASCULAR RISK IN RENAL FAILURE

### Guest Editors:

José Mora-Maciá  
Carlos Fernández-Andrade  
Ramón Romero

- **Introduction**  
*J. Mora-Maciá, C. Fernández-Andrade and R. Romero*
- **Markers, renal predictors and renal and cardiovascular risk factors**  
*C. Fernández-Andrade*
- **Renal and cardiovascular protection associated to antihypertensive treatment in the elderly**  
*J. Luño and S. García de Vinuesa*
- **Essential hypertension and renal vascular disease: nephroangiosclerosis**  
*R. Marín, M. Gorostidi and A. Pobes*
- **Diabetic nephropathy: prevention**  
*R. Romero*
- **Dyslipidaemia and cardiovascular risk in type 2 diabetes mellitus patients with associated diabetic nephropathy**  
*A. Martínez-Castelao, R. Ramos, M.<sup>a</sup> T. González and M.<sup>a</sup> J. Castiñeiras*
- **Cardiovascular risk factors in chronic renal failure**  
*J. M. López Gómez, R. Jofré and A. Cases*
- **Cardiovascular risk in patients with chronic renal failure. Patients in renal replacement therapy**  
*A. Cases, M. Vera and J. M. López Gómez*
- **Cardiovascular risk in renal transplanted patients**  
*J. M.<sup>a</sup> Campistol*
- **Genes and renal disease**  
*J. C. Rodríguez Pérez, F. Rodríguez Esparragón, M.<sup>a</sup> J. Torres and O. Hernández Perera*
- **Polymorphism of renin-angiotensin-system and renal failure**  
*A. Martínez Veá*
