- COUNCIL OF EUROPE CONSENSUS DOCUMENT: «MEETING THE ORGAN SHORTAGE»
- ROYAL DECREE TO REGULATE ORGAN DONATION AND TRANSPLANTATION IN SPAIN

SYMPOSIUM: «ADEQUACY ON HEMODIALYSIS: THE TIME FACTOR»

- **Debate on adequacy on hemodialysis: the time factor. Introduction and aims**
R. Selgas and G. Barril
- **Quality on dialysis. The Tassin experience**
G. Laurent
- **Adaptation of the vascular access to the different types of hemodialysis**
J. R. Polo
- **Daily ultrashort hemodialysis: the best system to get advantages from the high clearances**
U. Buoncristiani
- **Hemodialysis dose: a *sine qua non* condition for adequate hemodialysis**
F. Maduell
- **Adequacy on hemodialysis: the session duration. Changes in the clinical patterns of current patients**
F. Locatelli
- **Factors which may compensate the duration of the session to reach adequacy**
A. Martín-Malo
- **Prescribed hemodialysis time: does it guarantee adequacy?**
M. Fernández Lucas, J. L. Teruel, J. López Sánchez and J. Ortuño
- **Is high flux hemodialysis so bad?**
R. Pérez García
- **The importance of dry weight adjustment as the objective of adequacy on hemodialysis**
O. Ortega
- **β_2 -microglobulin in hemodialysis: an adequacy factor**
M. Maciá and J. F. Navarro
