

The journal NEFROLOGÍA recently published the following Supplement:

Clinical Practice Guidelines for the Prevention, Diagnosis, Evaluation and Treatment of Mineral and Bone Disorders in Chronic Kidney Disease (CKD-MBD) in Adults.

Guías de práctica clínica para la prevención, diagnóstico, evaluación y tratamiento de los trastornos minerales y óseos en la enfermedad renal crónica (TMO-ERC) en adultos.

Nefrologia 2013;33 Suppl(1):1-28.

Doi. 10.3265/Nefrologia.pre2013.Feb.11945. PMID:23629678.

The list of authors, all of whom are members of the Mineral and Bone Metabolism Committee SLANH, includes, in ninth place, Armando Negri of the Instituto de Investigaciones Metabólicas of the Universidad del Salvador in Buenos Aires, Argentina, whose full name was not published; his name should have appeared as **Armando L. Negri**.

We apologise to our readership, and in particular, to Prof. Armando Luis Negri.
