SPANISH SOCIETY OF NEPHROLOGY GUIDELINES

• Guidelines of Dialysis Fluid Quality

R. Pérez García, E. González Parra, F. Ceballos, R. Escallada, M.^a I. Gómez-Reino, P. Martín-Rabadañ, A. Pérez García, R. Ramírez Chamond, P. F. Sobino and C. Solozábal

Introduction

Terms and definitions

Abbreviations

1. Purity and quality of water for hemodialysis
2. Concentrates
3. Quality of Dialysate
4. Quality controls
5. Water purification methods
6. Quality assurance process

References

Appendix

- Appendix 1: Water treatment systems
- Appendix 2: Microbiological monitoring
- Appendix 3: Disinfection systems
- Appendix 4: Chemical contaminant monitoring
- Appendix 5: Normative references, recommended practice and international guidelines

• Guidelines of hemodialysis-associated viral infections

G. Barril, E. González Parra, R. Akdeze, D. Arenas, J. M.^a Campistol, C. Caramelo, M. Carrasco, X. Carreños, M. Espinosa, I. García Valdecasas, J.-L. Gómez, M.^a D. López, J. Martín, P. Ruiz and J. L. Torral

1. Introduction

2. Introduction to Universal precautions

3. Guidelines

- 3.1. Prevention and managements of HIV in hemodialysis patients
- 3.2. Prevention and managements of HBV in hemodialysis patients
- 3.3. Prevention and managements of HCV in hemodialysis patients

Appendix

- Appendix 1: Concepts
- Appendix 2: Universal precautions, application HBV, HCV, y HIV
- Appendix 3: HBV and HCV point epidemic in hemodialysis units
- Appendix 4: Viral hepatitis (HBV and HCV) treatment in hemodialysis patients
- Appendix 5: Requirements to be included in renal transplant waiting list in viral hepatitis patients
- Appendix 6: Normative references
